

# Index of Technical and Symposium Papers

Titles	
<b>A</b>	
Acoustic Resonator Analysis Using the Boundary Element Method for Application to Air-Handling System Design, C.Y.R. CHENG, A.F. SEYBERT, S. LIU	76
Analysis of Remote Receptor Hoods under the Influence of Cross Drafts, P. SAFEMAZANDARANI, H.D. GOOD-FELLOW	465
Analysis of Three Measures for Energy Efficiency of Residential Gas Furnaces, E.R. KWELLER	930
Applications of Optimal Control to Chilled Water Systems, J.E. BRAUN, S.A. KLEIN, J.W. MITCHELL, W.A. BECKMAN	663
Assessing in Situ Performance of Advanced Residential Heat Recovery Ventilator Systems: A Case Study of Monitoring Protocol, J.G. DOUGLASS	697
Assessment of Inverter-Driven Variable-Speed Air Conditioners: Sample Performance Comparison with a Conventional System, An, V. BAHEL, S.M. ZUBAIR	455
Assessments of Gas-Fired Cooling Technologies for the Commercial Sector, R. BRODRICK, R.F. PATEL	960
<b>B</b>	
Blower-Door-Directed Infiltration Reduction Procedure Description and Field Test, M.B. GETTINGS	58
Breakdown Mechanism and Uneven Heating of an Electric Heater, M.C. CHYU	251
Building Automation Systems in Industrial HVAC Controls, H.M. DABHOLKAR	483
<b>C</b>	
Canadian Research into the Installed Performance of Kitchen Exhaust Fans, D.W. FUGLER	753
Canadian Residential Combustion Spillage Monitoring, D.W. FUGLER	100
Capital Cost Reductions in Absorption Chillers, R.W. LEIGH, H.S. ISAACS, J. KIRLEY, A. RAVVE	939
Case Study: Office Building Uses Ice Storage, Heat Recovery, and Cold Air Distribution, R.K. TACKETT	1113
Case Study for Improving Performance and Life Expectancy of Air-Conditioning Systems at a University Campus, A. S.M. ZUBAIR, V. BAHEL, D.Y. ABDEL-NABI, M.A. ABDELRAHMAN	349
CBS/ICE: A Computer Program for Simulation of Ice Storage Systems, S.C. SILVER, J.W. JONES, J.L. PETERSON, B.D. HUNN	1206
Changes in Beef Roast Weight as a Result of Freezing Rate, Frozen Storage Temperature and Time, Thawing, and Cooking, B.W. BERRY, K.F. LEDDY	153
Climatic Changes and Rising Markets for Evaporative Cooling, J.R. WATT, A.A. LINCOLN	709
Cold Air Distribution Options with Ice Storage, G. MECKLER	1194
Commercial Building Ventilation Rates and Particle Concentrations, B.H. TURK, D.T. GRIMSRUD, J.T. BROWN, K.L. GEISLING-SOBOTKA, J. HARRISON, R.J. PRILL	422
Commercial Kitchen Ventilation—Efficient Exhaust and Heat Recovery, D.K. BLACK	780
Commercialization of Gas Engine Heat Pump with Automotive Engines, M. INADA, M. YOSHIDA	991
Commissioning: An Owner's Approach for Effective Operations, C.S. TRUEMAN	895
Commissioning—The Construction Phase, C.N. LAWSON	887
Commissioning: Why We Need It—What Are the Benefits?, H. BRICKMAN	881
Comparison of European and North American Window U-Value Calculation Procedures, A. D. CURCIJA, L.L. AMBS, W.P. GOSS	575
Comparison of 150 and 300 SUS Oil Effects on Refrigerant Evaporation and Condensation in a Smooth Tube and a Micro-Fin Tube, A. L.M. SCHLAGER, M.B. PATE, A.E. BERGLES	367
Component Models for Computer Simulation of Ice Storage Systems, S.C. SILVER, A.F. MILBITZ, J.W. JONES, J.L. PETERSON, B.D. HUNN	1214
Computer Analysis of Smoke Transport During a Hotel Fire, M. MECKLER	859
Control of Semiconductor Manufacturing Cleanrooms, G.V. ATKINSON, G.R. MARTINO	477
Creating a PROLOG Knowledge-Based System Using an Existing Air-to-Refrigerant Computer Model, C. BERGT	1237
<b>D</b>	
Data Acquisition and Analysis of Residential HVAC Alternative, B.E. WOLLER	679
Desiccant Properties and Their Effect on Cooling System Performance, R.K. COLLIER, JR.	823
Design Considerations for Ground and Water Source Heat Pumps in Southern Climates, S. KAVANAUGH	1139
Design Considerations for Laboratory HVAC System Dynamics, V.A. NEUMAN	121
Design Considerations for Low-Temperature Air Distribution Systems, J.J. HARMON	1295
Design of Cold Air Distribution Systems with Ice Storage, C.E. DORGAN, J.S. ELLESON	1317
Designing Healthy Buildings: The Architect's Role in the Commissioning Process, E.M. STERLING	893
Determination of the Performance of a Cryogenic Freezer, S.O. AWONORIIN	125
Development of a Fully Vented Gas Range, C. FARNSWORTH, A. WATERS, R.M. KELSQ, D. FRITZSCHE	759
Development of Air-Cooled Double-Effect Gas-Fired Absorption Water Chiller-Heater, S. KUROSAWA, S. FUJIMAKI	318
Development of Small Gas Engine Heat Pump, H. KAZUTA	982
Developments in HVAC Education at an Ohio University, M.S. DRAKE	1159
Difficulties in Sizing Water Heaters for Hotels and Motels, V.A. LEHR	1069
Direct Evaporative Coolers Can Benefit Industry, K.E. ROBINSON	726
Disadvantages of Auxiliary Air Fume Hoods, V.A. NEUMAN	70
Diurnal Ice Storage Cooling Systems in Army Facilities, C.W. SOHN, J.J. TOMLINSON	1079
Dynamic Response and Seasonal Efficiency of Space Cooling in a Research House, T.S. ZAWACKI, D.F. FOOTE, R.A. MACRISS	910
Dynamics and Control of a Chilled Water Coil, G.M. MAXWELL, H.N. SHAPIRO, D.G. WESTRA	1243
<b>E</b>	
Ecologically Safe Air Conditioning and Heat Pump Technology, An, T. EDWARDS	1150

Economic Analysis of Daylit and Non-daylit Large Office Buildings for Different Climatic Locations and Utility Rate Structures, C.A. JOHNSON, R.W. BESANT, G.J. SCHOENAU	14	Ice Storage Can Reduce the Construction Cost of Office Buildings, F.J. PEARSON	1308
Economic Parametric Analysis of the Thermal Design of a Large Office Building under Different Climatic Zones and Different Billing Schedules, An, C.A. JOHNSON, R.W. BESANT, G.J. SCHOENAU	355	Important Considerations in Computer Room Humidification, W.T. DEACON	1273
Economizer Savings Study, P.C. WACKER	47	Improved Heat Transfer Performance of Air Coolers by Strip Fins Controlling Air Flow Distribution, T. HATADA, H. UEDA, T. OOUCHI, T. SHIMIZU	166
Effect of Furnace Size on Morning Pickup Time, A.K. TREHAN, R.C. FORTMANN, M.D. KOONTZ, N.L. NAGDA	1125	Improving Gas-Fired Heat Pump Capacity and Performance by Adding a Desiccant Dehumidification Subsystem, B.K. PARSONS, A.A. PESARAN, D. BHARATHAN, B.C. SHELPUK	835
Effect of the Flueway Baffle Emissivity on the Performance of a Gas-Fired Water Heater, C.C. OFFHAUS, C. BECKERMANN, V.W. GOLDSCHMIDT	281	In-Space Heater Energy Use for Supplemental and Whole House Heating, D.W. DEWERTH, R.L. LORIA	239
Effective DDC Control in a Four-Color Rotary Printing Plant in Italy, A.J. SANDELEWSKI	498	Incorporating Computer-Aided Design into an HVAC Design Course, G.M. MAXWELL	1178
Energy Analysis in an HVAC Design Course, D.C. HITTLE	1174	Indoor Environment Acceptability: The Development of a Rating Scale, F.H. ROHLES, JR., J.E. WOODS, JR., P.R. MOREY	23
Energy Efficiency of a Building in the Eastern Province of Saudi Arabia: Parametric Analysis with DOE2.1A, S.A.M. SAID, M.A. ABDELRAHMAN	147	Indoor Natatorium Design and Energy Recycling, R. KITTLER	521
Estimation of Clear Sky Solar Radiation at Dhahran, Saudi Arabia: ASHRAE A, B, and C Technique, P.D. KRUISS, V. BAHREL, M.A. ELHADIDY, D.Y. ABDEL-NABI	3	Industry Standard 885: An Overview, Estimating Space Sound Levels for Air Terminal Devices, C. EBBING, W.J. WAELDNER	529
Estimation of the Seasonal Cyclic Losses of an Air Conditioner, V. BAHREL, S.M. ZUBAIR, M.A. ABDELRAHMAN	434	Industry Standard 885 Acoustical Level Estimation Procedure Compared to Actual Acoustic Levels in an Air Distribution Mock-up, M.C. SMITH	543
Expert System for the Design of Heating, Ventilating, and Air-Conditioning Systems, An, P.J. CAMEJO, D.C. HITTLE	379	Industry Standard Language for DDC Systems: A Look at the "C" Language, An, J.D. PETZE, S. CHAUDRY	567
Extending the Summer Comfort Envelope with Ceiling Fans in Hot, Arid Climates, D.G. SCHEATZLE, H. WU, J. YELLOTT	269	Influence of Temperature Stratification on Pressure Differences Resulting from the Infiltration Stack Effect, J.P. CHASTAIN, D.G. COLLIVER	256
		Installation and Operating Experience of a Gas Engine-Driven Chiller with Engine Heat Recovery, J.R. MORGAN, T.R. MCNAMARA, JR., B.B. LINDSAY	953
<b>F</b>		Introduction to Small Gas Engine-Driven Heat Pumps in Japan—History and Marketing, T. MIYAIRI	975
Field Comparison of Radiant and Convection Heated Vehicle Repair Buildings, B.W. JONES, W.F. NIEDRINGHAUS, M.R. IMEL	1045	Investigation of Rayleigh Number Effects on Combined Forced and Free Convection for Developing Laminar Flow in Uniformly Heated Horizontal Tubes, C.T. NGUYEN, N. GALANIS	171
Field Measurement of Chilled Water Storage Thermal Performance, N. TRAN, J.F. KREIDER	1106	Investigation of Regional Differences in Residential HVAC Systems Performance Using the SP43 Simulation Model, J.J. CRISAFULLI, R.A. CUDNIK, L.R. BRAND	915
Field Monitoring of the Winter Performance of a Residential Dehumidifier, G.A. TSONGAS, R.S. WRIDGE	284	Investigation of the Thermochemical Heat Storage System Using Zeolites, H. YAMAGUCHI, A. MITANI, K. KASHIMA, T. SAKAI, M. NISHINA	224
Frame and Spacer Effects on Window U-Value, S.C. CARPENTER, A.G. MCGOWAN	604		
		<b>L</b>	
<b>G</b>		Liquid Desiccant for Residential Applications, J. MARASALA, A. LOWENSTEIN, W. RYAN	828
Gas Cooling for the Commercial Sector—Present and Future Perspective, W.H. DOLAN	968	Low Frequency Problems in the Determination and Application of Equipment Sound Power Ratings, P.K. BAADE	549
		<b>M</b>	
<b>H</b>		Mass and Heat Transfer during Frost Growth, S.M. SAMI, T. DUONG	158
Heat Pump Service Trends in Alabama, N.C. LOVVORN	1133	Mathematical Model of a Refrigerant Desuperheater for Heat Recovery, M.L. D'VALENTINE, V.W. GOLDSCHMIDT	215
Heating Cost Allocation Multi-Family Buildings: Energy Savings and Implementation Standards, M.J. HEWETT, H.L. EMSLANDER, M.J. KOEHLER	789	Measurement of Contact Resistance in Finned Tube Heat Exchangers, K.M. NHO, M.M. YOVANOVICH	370
Heating Multiple-Unit Apartment Buildings with Gas-Fired Heating Systems: Experimental Strategy and Results, M. ZAHEER-UDDIN, P. FAZIQ, P. MONASTIRIAKOS	687	Methodologies for Optimal Control of Chilled Water Systems Without Storage, J.E. BRAUN, S.A. KLEIN, W.A. BECKMAN, J.W. MITCHELL	652
Hot Water Use and Water Heating Heat Pump Performance at Two Recreational Facilities, S.C. CARPENTER, J.P. KOKKO	1062	Methods for Measuring and Evaluating the Thermal Radiation in a Room, B.W. OLESEN, J. ROSENDAHL, L.N. KALISPERIS, L.H. SUMMERS, M. STEINMAN	1028
Hot Water Use in Florida Schools, M.M. YAROSH, T.J. MERRIGAN	1055		
Hotel Operation Using the Computer for Energy Management, J.R. AULBACH	563		
Humidification and Humidity in a Central Storage and Filing Building, C.J. SCHEMMER	1278		
Humidification by Evaporation for Control Simplicity and Energy Savings, W.K. BROWN	1265		

Mitigating Subsurface Gas by Ventilation in Subway Tunnels for Los Angeles Metro Rail, K.V. SAIN .....	295
Modeling and Optimization of a Finned Tube Evaporator, P.J. O'NEILL, R.R. CRAWFORD .....	1256
Modeling of Smoke Generation and Movement in a Nuclear Facility, W.S. GREGORY, B.D. NICHOLS .....	852
Monitoring Systems for Heating and Cooling Energy Allocation in Multiple Occupancy Buildings, R.A. HEGBERG .....	798
Motor Current Signature Analysis—A Potential Diagnostic for Air Conditioners, W.A. MILLER, H.D. HAYNES, F.P. GRIFFIN, W.P. LEVINS, M.A. KARNITZ .....	312

## N

Natural Convection in Sealed Glazing Units: A Review, J.L. WRIGHT, H.F. SULLIVAN .....	592
New Approach for Designing Heating Panels with Embedded Tubes, A. Z. ZHANG, M.B. PATE .....	231
New Concept for Perimeter Energy Control Based on Real-Time Measured Heat Flow Through the Building Envelope, A. D. RALL .....	629

## O

On Calculating House Energy Consumption Simply, W.R. JONES .....	1130
On-Line Recursive Estimation for Load Profile Prediction, W. MacARTHUR, A. MATHUR, J. ZHAO .....	621
Operation and Cost Advantages of a Liquid Overfeed Low Temperature Air Distribution System, G. FIELDS .....	1300
Optimal Control for Cool Storage, D.H. SPETHMANN .....	1189
Overview of Moisture-Related Damage in One Group of Wisconsin Manufactured Homes, J.L. MERRILL, A. TENWOLDE .....	405

## P

Part-Load Simulations of Simple Air-Conditioning Systems Using a New Coil Model, R. GANESH, H.J. SAUER, JR., R.H. HOWELL .....	300
Performance Monitoring of a Two-Stage Evaporative Cooler, H. WU .....	718
Performance of a Residential Zoned Heating System in an Unoccupied Research House, N.P. LESLIE, K.C. KAZMER .....	903
Performance of Room Air Conditioner Used for Cooling and Hot Water Heating, W.M. YING .....	441
Performance of Stratified Vertical Cylindrical Thermal Storage Tanks, Part I: Scale Model Tank, M.W. WILDIN, C.R. TRUMAN .....	1086
Performance of Stratified Vertical Cylindrical Thermal Storage Tanks, Part II: Prototype Tank, M.W. WILDIN .....	1096
Prediction of Condensation and Frosting Limits in Rotary Wheels for Heat Recovery in Buildings, R.B. HOLMBERG .....	64
Prediction of Smoke Movement: An Overview of Field Models, N. RHODES .....	868
Prediction of the Heat Duty in Flooded Refrigerant Evaporators, R.L. WEBB, T.R. APPARAO, K-D. CHOI .....	339
Primary Effluent as a Heat Source for Heat Pumps, G.E. PHETTEPLACE, H.T. UEDA .....	141
Procedure for Modeling Diversity in Laboratory VAV Systems, A. M.S. LENTZ, A.K. SETH .....	114

## R

Realistic Evaluation of Kitchen Ventilation Hood Designs, A. R.L. FRITZ .....	769
Reducing Crawl Space Heat Loss, R.B. FARRINGTON .....	415
Reducing Energy Costs in Vapor-Compression Refrigeration and Air Conditioning Using Liquid Recycle—Part I: Comparison of Ammonia and R-12, M.T. HOLTZAPPE .....	179

Reducing Energy Costs in Vapor-Compression Refrigeration and Air Conditioning Using Liquid Recycle—Part II: Performance, M.T. HOLTZAPPE .....	187
Reducing Energy Costs in Vapor-Compression Refrigeration and Air Conditioning Using Liquid Recycle—Part III: Comparison to Other Energy-Saving Cycles, M.T. HOLTZAPPE .....	199
Removal of Airborne Radon Decay Products, D.W. MOELLER, E.F. MAHER, S.N. RUDNICK .....	28
Research Needs for Heating/Cooling Cost Allocation Systems, J.R. ZAWORSKI, D.R. GOETTLING .....	806
Retrofit of Double-Duct Fan System to a VAV System, G. SHAVIT .....	635

## S

Selection of Ozone-Safe, Nonazeotropic Refrigerant Mixtures for Capacity Modulation in Residential Heat Pumps, E.A. VINEYARD, J.R. SAND, T.G. STATT .....	34
Simulation of a Large Office Building System Using the HVACSIM+ Program, C. PARK, S.T. BUSHBY, G.E. KELLY .....	642
Size Distributions and Mass Concentrations of Naturally Generated Cooking Aerosols, J.C. ANNIS, P.J. ANNIS .....	735
Small Hotel Guest Room HVAC Selection, P.G. COLLINS .....	517
Smart Building Controls Strategies: Research and Application, S. BOONYATIKARN, J.R. JONES .....	557
Software to Help Students Learn About Thermal Storage Systems and Their Economics, D.B. MEREDITH, K.A. STECAK .....	1182
Sound Attenuation of Acoustically Lined Circular Ducts and Radiused Elbows, D.D. REYNOLDS, J.M. BLEDSOE .....	96
Sound Attenuation of Unlined and Acoustically Lined Rectangular Ducts, D.D. REYNOLDS, J.M. BLEDSOE .....	90
Sound Transmission through Mechanical Equipment Room Walls, Floor, or Ceiling, D.D. REYNOLDS, J.M. BLEDSOE .....	83
Specifying HVAC Systems Commissioning, K.E. GILL .....	883
Stairwell Pressurization in a Cold Climate, J.A. CLARK, J.W. HARRIS .....	847
State Space Modeling of Refrigeration Compressor Shell Dynamics, M.S. TAVAKOLI, R. SINGH .....	131
Strategy for Testing Multiple Heating Systems under Representative Weather Conditions within a Single Season, M.D. KOONTZ, A.K. TREHAN, N.L. NAGDA, K.C. KAZMER .....	52
Stream Dispatching Control System for Fort Benjamin Harrison, Indiana, A. H.A. McLAIN, M.A. KARNITZ, J.A. SHONDER .....	812
Study of Kitchen Range Exhaust Systems, A. T.H. KUEHN, J. RAMSEY, H. HAN, M. PERKOVICH, S. YOUSSEF .....	744
System Simulation of the Performance of a Centrifugal Chiller Using a Shell-and-Tube-Type Water-Cooled Condenser and R-11 as Refrigerant, S.P.W. WONG, S.K. WANG .....	445

## T

Temperature Variations of Flux Modulated Radiant Slab Systems, C.R. MACCLUER .....	1010
The Applicability and Limitations of a Simplified Building Energy Analysis Model (ASEAM2.1)—A Comparison Study, M.M. OHADI, J.R. MEYER, K.M. POLLINGTON .....	1163
The Correlation of Annual Commercial Building Coil Energy with Envelope, Internal Load, and Climatic Parameters, J.L. PETERSON, J.W. JONES, B.D. HUNN .....	206
The Effect of Radon Mitigation Systems on Ventilation in Buildings, D.T. HARRJE, L.M. HUBBARD, K.J. GADSBY, B. BOLKER, D.L. BOHAC .....	107
The HVAC Commissioning Plan, D.T. STONE .....	885

The MRT-Correction Method: A New Method of Radiant Heat Exchange, M. STEINMAN, L.N. KALISPERIS, L.H. SUMMERS .....	1015
The Temperature Stability of a Radiant Slab-on-Grade, C.R. MACCLUER, M. MIKLAVCIC, Y. CHAIT .....	1001
Theoretical Model for Prediction of the Heat Load in Flooded Refrigerant Evaporators, A, R.L. WEBB, K-D. CHOI, T.R. APPARAO .....	326
Thermal Resistance Measurements and Calculations of an Insulated Concrete Block Wall, D.M. BURCH, B.A. LICITRA, D.F. EBBERTS, R.R. ZARR .....	398

## U

U-Values, Solar Heat Gain, and Thermal Performance: Recent Studies Using the McWITT, J.H. KLEMS .....	609
Use of Programmable Controllers for HVAC Control and Facilities Monitoring Systems, J.P. COLE, G.V.R. HOLNESS .....	492

## V

Verification of ADC/ARI 885 Application Guidelines Using Acoustic Intensity Sound Measurements, D. INT-HOUT .....	534
Verification of Evaporator Computer Models and Analysis of Performance of an Evaporator Coil, M. CHWALOWSKI, D.A. DIDION, P.A. DOMANSKI .....	1229

## W

What's Being Used Out There for Smoke Detection and Energy Control in Guest Rooms, T.A. HOWELL .....	513
--	-----

# Authors

## A

ABDEL-NABI, D.Y., P.D. KRUSS, V. BAHTEL, M.A. ELHADIDY, Estimation of Clear Sky Solar Radiation at Dhahran, Saudi Arabia: ASHRAE A, B, and C Technique .....	3
ABDEL-NABI, D.Y., S.M. ZUBAIR, V. BAHTEL, M.A. ABDEL-RAHMAN, A Case Study for Improving Performance and Life Expectancy of Air-Conditioning Systems at a University Campus .....	349
ABDELRAHMAN, M.A., V. BAHTEL, S.M. ZUBAIR, Estimation of the Seasonal Cyclic Losses of an Air Conditioner .....	434
ABDELRAHMAN, M.A., S.A.M. SAID, Energy Efficiency of a Building in the Eastern Province of Saudi Arabia: Parametric Analysis with DOE2.1A .....	147
ABDELRAHMAN, M.A., S.M. ZUBAIR, V. BAHTEL, D.Y. ABDEL-NABI, A Case Study for Improving Performance and Life Expectancy of Air-Conditioning Systems at a University Campus .....	349

# Index of Technical and Symposium Papers

## Volume 95, Part 2

Titles	
<b>A</b>	
Active Attenuation of Acoustic Noise: Past, Present, and Future, D.C. SWANSON	63
Air Distribution for Raised Floor Offices, R.E. GENTER	141
Airflow Measurements at Coil Faces with Vane Anemometers: Experimental Results (RP-451), R.H. HOWELL, H.J. SAUER, JR.	128
Airflow Network Models for Element-Based Building Airflow Modeling, G.N. WALTON	611
Algorithm for Generating a Polynomial Form of the s-Transfer Matrix for One-Dimensional Multilayered Slabs, An, D.H. EUNILKIM	58
Algorithms for Predicting Recovery Time from Night Setback, J.E. SEEM, P.R. ARMSTRONG, C.E. HANCOCK	439
Analysis and Consequences of Fire Inside the Ventilation Ducts of a Nuclear Facility, A.R. BRIAND, J.C. LABORDE, P.R. MULCEY, J.H. SAVORNIN, J.L. TESSIER	878
Analysis of Ice Formation with Flow Reversal for Application to a Water Source Heat Pump, S.M. ACEVES-SABORIO, G.M. REISTAD, H. NAKAMURA	366
Analytical Heat Transfer Prediction Model for Condensation Inside Longitudinally Finned Tubes, An, N. KAUSHIK, N.Z. AZER	516
Analytical Versus Wind Tunnel Determined Concentrations Due to Laboratory Exhaust, R.L. PETERSEN, D.J. WILSON	729
Applied Heat Pump Opportunities in Commercial Buildings, R.C. NIESS	493
Approximate Attic Air Temperatures and Ceiling Heat Fluxes with Radiant Barriers, W.E. STEWART, JR., B.R. BECKER, L.A. STICKLER, M.E. GREER	244
<b>C</b>	
Canadian Project to Develop Energy Labels for Windows, T.P. MAYO, S. CARPENTER	772
Case Studies of Displacement Ventilation in Public Halls, H.M. MATHISEN	1018
Chemical Gaseous Filtration, R.D. PORCO	987
Combining Door Swing Pumping with Density Driven Flow, D.E. KIEL, D.J. WILSON	590
Comparison of Central and Individual Systems for Space Conditioning and Domestic Hot Water in New Multifamily Buildings, A, S.J. BYRNE, J.M. FAY	798
Comparison of Conventional Mixing and Displacement Air-Conditioning and Ventilating Systems in U.S. Commercial Buildings, O.A. SEPPANEN, W.J. FISK, J. ETO, D.T. GRIMSRUD	1028
Comparison of Experimental Test Results and Analytical Calculations of Window Thermal Performance, F.M. DUBROUS, S.J. HARRISON	747
Comparison of Freezing Control Strategies for Residential Air-to-Air Heat Recovery Ventilators (RP-543), E.G. PHILLIPS, R.E. CHANT, D.R. FISHER, B.C. BRADLEY	484
Comparison of Wind Tunnel Test Results with Empirical Exhaust Dilution Factors, G.D. SCHUYLER, G.G. TURNER	737
Comparison Test of Two Solar Air Heating Systems with Phase Change Energy Storage, A, E.F. THACHER, M.A. PENIK, JR.	147
Comparisons of Variable-Volume Fume Hood Controllers, T.M. RABIAH, R.P. GARRISON, R.K. SACHDEV	837
Contamination of Reflective Foils in Horizontal Applications and the Effect on Thermal Performance, J.C. COOK, JR., D.W. YARBROUGH, K.E. WILKES	677
Coupled Airflow and Thermal Analysis Problem in Building Airflow System Simulation, The, J. AXLEY, D. GROT	621
<b>D</b>	
Data Base for Determining the Evaporative Resistance of Clothing, A, E.A. MCCULLOUGH, B.W. JONES, T. TAMURA	316
Decision Analysis for Prioritizing Recommended Energy Conservation Options, K.L. MEADOWS, P.W. BROTHERS	934
Design Documentation Instead of Design/Build Documentation for Controls, J.R. SOSOKA, K.W. PETERSON	643
Desk Top Personal Computers Transform the Documentation of DDC Systems, D.T. MCGEOWN	639
Development of a Dynamic Model for Simulating Indoor Air Temperature and Humidity, C.G. BARRINGER, C.A. MCGUGAN	449
Development of an Expert System for Fire Management in Buildings, H. ABTAHI	947
Displacement Ventilation Systems in Office Rooms, M. SANDBERG, C. BLOMQUIST	1041
Documentation of DDC Systems, D.R. WEBB	641
DOE-2.1C Data Base of Building Loads for Prototypical Multifamily Buildings in the U.S., Y.J. HUANG, R.L. RITSCHARD, J.M. FAY	786
Dust Concentration Modeling for Industrial Operations (RP-531), W.T. FAY, T.H. KUEHN, D.Y.H. PUI, M.H. BERGIN	92
Dynamic Control—A Case Study, D.K. SPRATT, G.W. SADLER, K.R. MOODIE	193
<b>E</b>	
Effect of Freezing Rate and Storage Time on Shelf-Life Quality of Hot-Boned and Cold-Boned Ground Beef—Part II, Sensory Quality Evaluation (RP-350), V.G. GAPUD, D.V. SCHLIMME, M.A. SMITH	300
Effect of Residential Air-to-Air Heat and Moisture Exchangers on Indoor Humidity (RP-544), C.G. BARRINGER, C.A. MCGUGAN	461
Effective Approach for Dynamically Compensated Adaptive Control, An, J.W. MACARTHUR, E.W. GRALD, A.F. KONAR	415
Effectiveness Models for Cooling Towers and Cooling Coils, J.E. BRAUN, S.A. KLEIN, J.W. MITCHELL	164
Effects of Ducted Forced-Air Heating Systems on Residential Air Leakage and Heating Energy Use, L.A. LAMBERT, D.H. ROBINSON	534
Effects of Outdoor Coil Fan Pre-Start on Pressure Transients During the Reverse Cycle Defrost of a Heat Pump, N.K. ANAND, J.S. SCHLIESING, D.L. O'NEAL, K. PETERSON	699
Enhancing HVAC&R Curriculum with Practicing Engineers and Laboratory Experiences, S.P. KAVANAUGH	893
Equipment R&D Benefits of Characterizing the Energy Requirements of Office Buildings and Multifamily Housing, The, J.R. BRODRICK	779
Equipment Sizing Procedures for Combination Space-Heating/Water-Heating Systems, J.A. PIETSCH, S.G. TALBERT	250
Estimation of Wind Pressures at Ventilation Inlets and Outlets on Buildings, The, R.M. AYNLEY	707
Evidence of Increased Levels of Space Heat Consumption and Air Leakage Associated with Forced Air Heating Systems in Houses in the Pacific Northwest, D.S. PARKER	527
Experimental Studies on Characteristics of a Two-Stage Absorption Heat Transformer, T. YUMIKURA, M. IKEUCHI, E. OZAKI, G. YAMANAKA, T. ARAI	175
Experimental Study of Particulate Fouling in Enhanced Water Chiller Condenser Tubes, N-H. KIM, R.L. WEBB	507
Experimental Study on Condensation of Refrigerant-Oil Mixtures: Part III—R-12 and R-22 on the External Surface of Single and Multiple Horizontal Finned Tubes (RP-378), J.C.Y. WANG, S. LIN, P. FAZIO, Z. JIANG	386
Expert System for Selection of Standardized Research Greenhouses, A.N. TULUCA, G.E. TURNER, M. KRARTI, V. ANTIPA	938
<b>F</b>	
Field Investigation of Residential Infiltration and Heating Duct Leakage, D.H. ROBINSON, L.A. LAMBERT	542
Flame Structure in a Portable Oil Heater with Cylindrical Tubes and a Wick, Y. ARAI, T. OTSUKI, N. HIRATA	157
<b>H</b>	
Heat and Mass Transfer around One-Row Tube Bank Simulating Containment Fan Cooler under Post-Accident Condition in Nuclear Power Plant, K. AOKI, T. YANO, K. TAZAWA, H. TANIGUCHI, K. KUDO, T. KUSAKAI, T. OKAMOTO	999
Heat Exchanger Expert System, A, D.G. BAGBY, R.A. CORMIER	927

Heat Transfer and Pressure Drop Performance of Smooth and Internally Finned Tubes with Oil and Refrigerant 22 Mixtures (RP-469), L.M. SCHLAGER, M.B. PATE, A.E. BERGLER	375	Nuclear Facility Air Lock Design Criteria, R.E. PERRY, K.R. SCAGGS, B.M. ALLEN, JR.	1005
HEPA Filters of High Structural Strength for Nuclear Air Cleaning Systems, V. RUEDINGER, C.I. RICKETTS, J.G. WILHELM	865	Nuclear Power Station Main Control Room Habitability, W.B. PASCHAL, W.S. KNOUS	855
<b>I</b>		<b>O</b>	
Impact of Air Humidity on Thermal Comfort During Step-Changes (RP-503), R.J. DE DEAR, H.N. KNUDSEN, P.O. FANGER	336	Object-Oriented DDC Documentation, C.A. GULOTTA	631
Impact of Thermal Storage on Closed-Loop Heat Pump System Performance, R.H. HOWELL, J.H. ZAIDI	357	Observed Performance of VAV Hood Controls, D.R. LACEY	817
Infiltration and Pressure Differences Induced by Forced Air Systems in Florida Residences, J.B. CUMMINGS, J.J. TOOLEY, JR.	551	Optimal Globe Temperature Respecting Human Thermoregulatory Range, M.V. JOKL, P. MOOS	329
Infiltration Heat Gains through Cold Storage Room Doorways, W.A. HENDRIX, D.R. HENDERSON, H.Z. JACKSON	1155	Overview of Water Treatment Practices in Thermal Storage Systems, R.M. AHLGREN	963
Influence of the Vapor Permeability of Clothing on Thermal Discomfort, The, G. ALFANO, S. COLECCHIA, F.R. D'AMBROSIO	309	<b>P</b>	
Inhibited Glycols for Corrosion and Freeze Protection in Water-Based Heating and Cooling Systems, D.W. BORN	969	Performance Comparison of Refrigerants R-134a and R-12 in a Residential Exhaust Air Heat Pump (RP-479), J.W. LINTON, W.K. SNEELSON, P.F. HEARTY	399
Integrated Desiccant Cold Air Distribution System, M. MECKLER	1085	Performance of a Condensing Copper Finned Tube Heat Exchanger: Effects of Baffles, S.A. IDEM, V.W. GOLDSCHMIDT	393
Integrating HVAC System Design and Analysis in a Graduate Architectural Studio, G.W. SIEBEIN, T.R. WOOD	919	Pipe Spacing for Double-Layer Ground Heat Exchangers, V.R. TARNAWSKI, W.H. LEONG	209
Integration of a Comprehensive Design Project in a One-Semester HVAC Course, A.S. LAU	899	Polymers as Advanced Materials for Desiccant Applications: 1. Commercially Available Polymers, A.W. CZANDERNA	1098
<b>K</b>		Power Balance Model for Converging and Diverging Flow Junctions, A. S.E. GUFFEY, D.A. FRASER	3
Kinetic Power Model of Junction Losses, S.E. GUFFEY, D.A. FRASER	10	Practical Laboratory Ventilation Control System, A. R.G. WENZ	830
<b>L</b>		Practical Solutions to Retrofitting Existing Fume Hoods and Laboratories, R.R. MONSEN	845
Laboratory and Field Measurements of Fractional Efficiency of Industrial Dust Collectors (RP-531), M.H. BERGIN, D.Y.H. PUI, T.H. KUEHN, W.T. FAY	102	Predicted vs. Actual Conservation Opportunities in Commercial Buildings: Lessons Learned from Measured Energy Performance, C.M. CLEARY, M.A. SCHULT	1075
Literature Review of Measurement and Predictions of Reflective Building Insulation System Performance, 1900-1989, W.P. GOSS, R.G. MILLER	651	Process Heat Recovery Heat Pumps, F.J. PUCCIANO, P.A. ROWLES	499
Local Thermal Discomfort Due to Draft and Vertical Temperature Difference in Rooms with Displacement Ventilation, A.K. MELIKOV, J.B. NIELSEN	1050	<b>Q</b>	
<b>M</b>		Quasi-Real-Time Expert System for Commercial Building HVAC Diagnostics, A. D. ANDERSON, L. GRAVES, W. REINERT, J.F. KREIDER, J. DOW, H. WUBBENA	954
Maintaining Adequate Data Capture Rates from Remote Sites with End-Use Monitoring Equipment, J.L. STOOBS	1061	<b>R</b>	
Measurement and Formulation of the Thermodynamic Properties of Refrigerants 134a (1,1,1,2-Tetrafluoroethane) and 123 (1,1-Dichloro-2,2,2-Trifluoroethane), M.O. MCLINDEN, J.S. GALLAGHER, L.A. WEBER, G. MORRISON, D. WARD, A.R.H. GOODWIN, M.R. MOLDOVER, J.W. SCHMIDT, H.B. CHAE, T.J. BRUNO, J.F. ELY, M.L. HUBER	263	Radiation Control Coatings: An Underutilized Energy Conservation Technology for Buildings, R.W. ANDERSON	682
Method of Forming China's Meteorological Data Used for Analyzing Building Annual Energy Consumption, A. L. BAIZHAN, T. SHENGYUAN	259	Refrigeration Loads in a Freezer Due to Hot Gas Defrost, and Their Associated Costs, R.A. COLE	1149
Microbial Life in Ice and Chilled Water Thermal Storage Systems, A.K. MEITZ, D.C. JOHNSON	976	Refrigeration System Dynamics During the Reverse Cycle Defrost, D.L. O'NEAL, K. PETERSON, N.K. ANAND, J.S. SCHLIESING	689
Model to Compare Freezing Control Strategies for Residential Air-to-Air Heat Recovery Ventilators, A (RP-543), E.G. PHILLIPS, R.E. CHANT, B.C. BRADLEY, D.R. FISHER	475	Refrigerator-Freezer Energy Testing with Alternative Refrigerants, E.A. VINEYARD, J.R. SAND, W.A. MILLER	295
Model Validation for Three Ground-Coupled Heat Pumps, Y. MOHAMMAD-ZADEH, R.R. JOHNSON, J.A. EDWARDS, P. SAFEMAZANDARANI	215	Research on Prevention of Vapor Condensation in Dwellings, T. IKEDA, Y. KOBAYASHI, Y. DOBASHI	222
Moisture Measurements in Single-Family Houses with Attics Containing Radiant Barriers, W.P. LEVINS, M.A. KARNITZ, J.A. HALL	235	Residential Duct System Leakage: Magnitude, Impacts and Potential for Reduction, M.P. MODERA	561
Monitoring Electric End-Uses in Commercial Buildings, J.D. ACHERMAN	1065	Response of Self-Tuning Single-Loop Digital Controllers to a Computer-Simulated Heating Coil, D.M. UNDERWOOD	424
Monitoring of Electrical End-Use Loads in Commercial Buildings, M. MARTINEZ, T. ALEREZA, D. MORT	1070	Robust Self-Tuning Predictive Controller for HVAC Applications, A. A.L. DEXTER, P. HAVES	431
<b>N</b>		Role of Fire Dampers in the Event of Fire in a Nuclear Facility—Selection Criteria for Devices, The, J.H. SAVORNIN, J.C. LABORDE	885
Natural Convection and Air Flow Pattern in a Partitioned Room with Turbulent Flow, F. HAGHIGHAT, Z. JIANG, J.C.Y. WANG	600	<b>S</b>	
Noble Gas Migration in Auxiliary Buildings, D. BHASIN, P.L. LAGUS, W. ADAMS	994	Simple Method for Modeling the Frost Formation Phenomenon in Different Geometries, A. M.M. PADKI, S.A. SHERIF, R.M. NELSON	1127
Nordic Experiences of Displacement Ventilation Systems, A.G.L. SVENSSON	1013	Some Aspects of Gravity Driven Air Flow Through Large Apertures in Buildings, J. VAN DER MAAS, C.A. ROULET, J.A. HERTIG	573
		Stair Pressurization Systems for Smoke Control: Design Considerations (RP-559), G.T. TAMURA	184
		Study of Heat and Mass Transfer Through a Doorway in a Traditionally Built House, A. S.B. RIFFAT	584
		Sub-Optimal Controller for a Space Heating System, M. ZAHEER-UDDIN	201

# T

Teaching Computerized Techniques for the Design of Energy-Efficient HVAC Systems, R. ZMEUREANU, P. FAZIO	906
Teaching HVAC in a School of Architecture, C.H. BOVILL, R.M. KELSO	912
Test Results on a Supercharged Compressor for Commercial Refrigeration, J.W. ANDREWS, T.A. BUTCHER, W.G. WILHELM	284
Testing and Modeling of a Water-to-Air Heat Pump Operating with a Nonazeotropic Refrigerant Mixture (RP-479), D. PARENT, P.A. LARUE	405
Testing of Novel Desiccant Materials and Dehumidifier Matrices for Desiccant Cooling Applications, A.A. PESARAN, C.E. BINGHAM	1109
Theoretical Cooling Coil Calculations at Freezer Temperatures to Avoid Unfavorable Coil-Frost, G.R. SMITH	1138
Thermal Performance of Reflective Insulation Materials and Systems: A Detailed Program, A.O. DESJARLAIS, R.A. TYE	665
Thermal Performance of Typical Light Frame Walls with Reflective Surface Insulations, G.L. RISKOWSKI, L.L. CHRISTIANSON, R.G. MILLER	671
Thermal Resistance Measurement of Glazing System Edge-Seals and Seal Materials Using a Guarded Heater Plate Apparatus, J.L. WRIGHT, H.F. SULLIVAN	766
3-D Numerical Simulation of Turbulent Air Flow in and Around Buildings Based on the $k-\epsilon$ Model with Generalized Curvilinear Coordinates, S. KATO, S. MURAKAMI, Y. ISHIDA	30
Two-Stage Desiccant Dehumidification in Commercial Building HVAC Systems, G. MECKLER	1116

# U

User's Experiences with Variable-Volume Laboratory Fume Hood Exhaust Systems, R.B. SHUMAKER	825
Using the Office Building and Multifamily Data Bases in the Assessment of HVAC Equipment Performance, D.B. CRAWLEY, Y.J. HUANG	805

# V

Versatile Procedure for Calculating Heat Transfer Through Windows, A. D.K. ARASTEH, M.S. REILLY, M.D. RUBIN	755
Vibration Response of Propeller Fans Under Actual Operating Conditions—I: Operational Tests of Four-Blade Propeller Fans, (RP-477) D.D. REYNOLDS, J.M. BLEDSOE, W. CULBRETH, S.G. LADKANY	77
Vibration Response of Propeller Fans under Actual Operating Conditions—III: Finite Element Studies of the Influence of Welded and Riveted Connections on the Vibration Response of Propeller Fans (RP-477), S.G. LADKANY, M.S. ROUAS, D.D. REYNOLDS	82
Vibration Response of Propeller Fans under Actual Operating Conditions—IV: Automatic Generation of Curved and Twisted Propeller Fan Surfaces for a Dynamic Analysis by Finite Elements (RP-477), S.G. LADKANY, M.S. ROUAS, D.D. REYNOLDS	88

# W

Water Spray for Humidification and Air Flow Reduction, W.J. DAVIS	351
Wind-Induced Ventilation, F. ALLARD, M. HERRLIN	722
